Dear Valued Customer,

West Pharmaceutical Services, Inc. (West) is pleased to announce the United States Food and Drug Administration (FDA) 510(K) clearance of the Vial2Bag Advanced™ 20mm Admixture Device, a universal, needle-free admixture device for immediate use with IV administration on October 21, 2020.

The Vial2Bag Advanced™ 20mm Admixture Device enables reconstitution and transfer of a drug between a vial and an IV bag prior to administration to the patient. The innovative needle-free and easy-to-use device is ideal for immediate use and can optimize pharmacy clean room time, while assisting in standardizing admixture systems to maximize the efficiency of point-of-care nursing.

Key features of the Vial2Bag Advanced™ 20mm Admixture Device make it an effective solution for meeting USP <797> compounding requirements:

- New Design
 - Dual channel design provides dedicated fluid pathways into and out of the IV bag
 - Enhanced vial spike design improves the connection between the vial and the Vial2Bag Advanced™ adapter
 - Needle-free device meets OSHA and NAPPSI sharps prevention guidance
- Optimized Patient Care
 - Provides a simple solution for just-in-time IV medication preparation, improving timeliness at point of care
 - Easy to implement immediate use solution
- Effective Waste Reduction
 - Reduces medication and IV fluid waste
 - Universal compatibility with all manufacturers' 50, 100 and 250mL IV bags Suitable for use with liquid and powder medications with standard 20mm closure vials

We understand that a point of care solution is needed now more than ever in the current healthcare climate, and we are pleased to offer a solution to improve quality of care.

Please contact Progressive Medical Inc., West's exclusive US distributor for more information on the Vial2Bag Advanced™ 20mm Admixture Device.

Sincerely,

Cindy Reiss-Clark
