

# PMI LAPSYSTEM™

Disposable 5mm Monopolar Instrumentation

**MINIMIZE the Impact of Surgery**

PMI LAPSYSTEM™

Single Patient Use | Fully Disposable Scissor

PMI LAPSYSTEM™ disposable instruments provide clinicians with convenient, safe, sharp and precise minimally invasive monopolar instruments. A fresh blade and new insulation in each case enabling safe, precise cutting.

DISPOSABLE CONVENIENCE MEETS  
**UNPRECEDENTED DURABILITY**

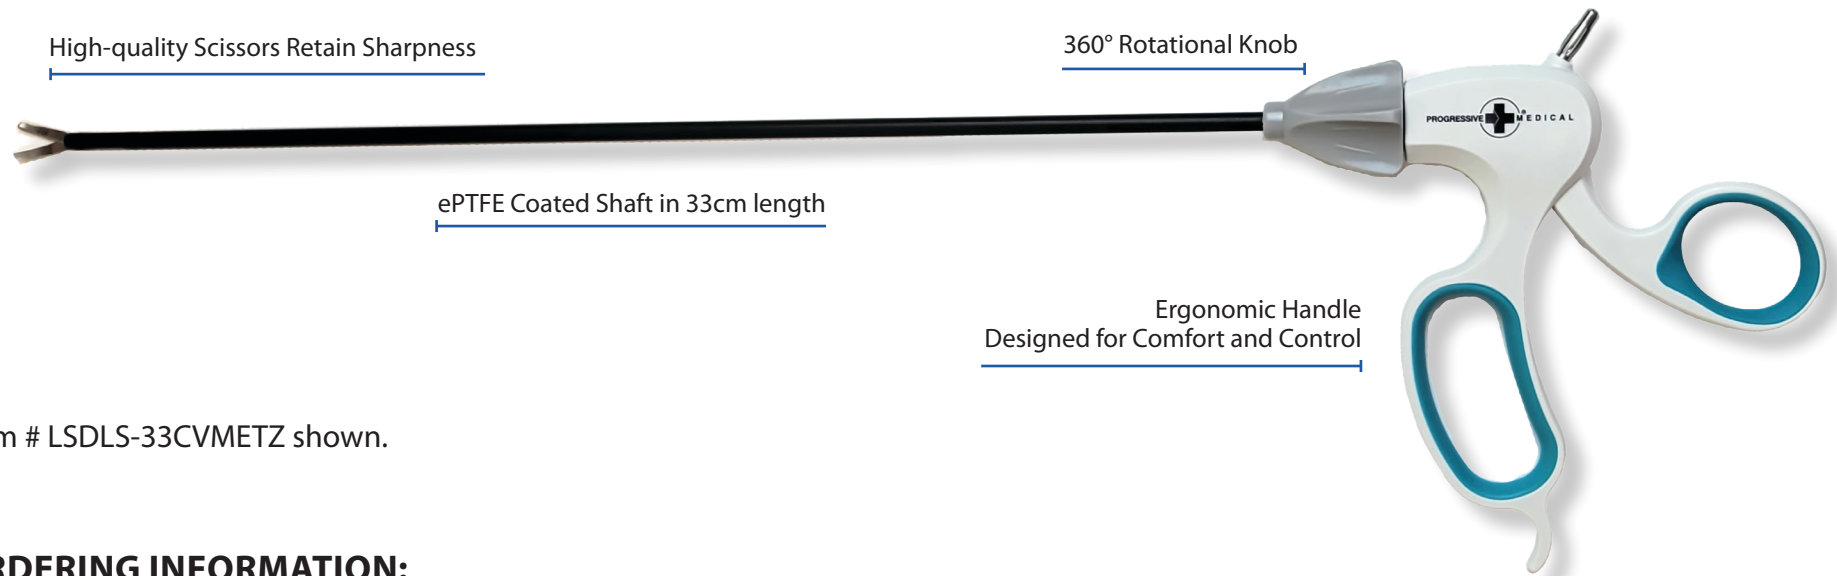

# PMI LAPSYSTEM™ - Fully Disposable, Single-Patient Use

## Features:

- Fully disposable
- Lightweight, low profile, ergonomic unit
- Durable blades

## Benefits:

- Ultimate in convenience, eliminating the burden on SPD, reduced risk of infection
- Allows for comfort, control, and reduced hand fatigue to benefit a wide range of hand sizes and orientations
- Remains sharp through the procedure and ensures effective cutting vaporization and coagulation

Item # LSDLS-33CVMETZ shown.
